

The Many Types of Intelligence

Understanding Intelligence

Intelligence is the ability to solve problems, adapt, and learn. Every person learns and processes information in different ways.

Identifying Skills in Children

Understanding HOW a child is intelligent can provide insight for parents. You can gain more knowledge on how to interact with and support your children. Watch your children to find out how they're smart!

There are many ways to be Smart!

Logical-Mathematical Intelligence	Analyzing problems and math
Spatial Intelligence	Visual and spatial judgement
Body-Kinesthetic Intelligence	Physical movement and control
